**DIRECTIONS FOR USE: Use only as directed.**

Nutrispray Multi is a phosphorus and trace element mixture for use in nutrient feeding solutions. Nutrispray Multi was developed to supply essential trace elements where these nutrients are not readily absorbed & thus potential deficiencies develop, leading to retarded growth, reduced crop development and yield. Do not exceed the appropriate application rates.

**MIXING INSTRUCTIONS:** Always follow the label recommendations. Where water volume differs from recommended rates as specified on the label, adjust application rates accordingly. Shake the container thoroughly before use. Half fill the mixing tank with clean water. Add the required volume of Nutrispray Multi to the mixing tank and ensure thorough agitation.

**COMPATIBILITY:** Since certain factors may vary from farm to farm, a physical compatibility test must always be performed before such a tank mixture is sprayed. For more information on compatibility or in the event of uncertainty, contact your local representative.
